Numerous complaints are heard of the disconcerting treatment passengers of the Rapid Transit company's line to Caldar's park receive from some of the conductors. Only a couple of evenings ago two young ladies boarded a Caldar's park car to the depot, got up the stairs, and the conductor had obtained transfers from the Fourth South line and felt secure in the belief that they were only availing themselves of the company's advertised rate of 10 cents for the round trip, half of which they had paid. The conductor, however, demanded additional fare, saying that only 10-cent tickets were good for round trips. Without any cause whatever, the conductor became very violent, so much so that he laid the big brother of the young lady passengers before him. The conductor would have received a sound drubbing.

IN THE POLITICAL ARENA

TALKING OF CANDIDATES FOR THE SUPREME COURT.

Judge Zane Likely to Be Renominated—Congressional Timber—The Senatorship—County Offices.

Among the several places which will be filled at the election this fall will be that of justice of the supreme court, the expiration of the term of office of Chief Justice Zane, making it necessary that some one should be selected.

Chief Justice Zane, a candidate for renomination at the hands of his party, and is about the only one mentioned on the Republican side of the fence.

Judge Rolapp, of Ogden, is mentioned by a great many Democrats, who would like to see him a candidate. In no sense is he seeking the nomination himself, but there are a number who want him to run. Hon. Franklin S. Richards is also suggested in connection with the office, and there are a number who would like to see him a candidate.

So far as can be ascertained, these are all the candidates who are in the field for the place, although there may be others who will come up as the season advances.

Fisher S. Harris has many supporters who want to see him for congress, and a quiet boom is being worked up for him during these summer days. Since being on the last board, he has had a chance to get out and become acquainted with the people, and it is said there are many in the rural districts who would rally to his standard readily. Will Nebeker wants Rolapp, but Nebeker has a constituency down around Mercur, Tivoli and Eureka who declare that Will Nebeker would be a good man for the place, and that he must run. Senator Hildreth is a very able man and has several lieutenants who are working for him with all the energy they can muster.

State Senator Whitaker is thinking of resigning and running for the nomination for county commissioner this fall. His suggestion is meeting with a great deal of opposition, because there is a United States senator to be elected this winter, and if the legislature should elect the governor, having power to fill the vacancy, could gain a point by appointing some one from the Republican party to fill the place. This is the event which is being looked for.

Some intimations have been heard concerning the action of the non-partisan convention of delegates to the Democratic convention at Murray, on Saturday, July 2, for nominating a candidate for county school superintendent.
